- Area total: 102,775 km²
- Population: 364,134
- Capital: Reykjavík
- Currency: Icelandic króna (ISK)

A wide-angle photograph of a snowy, rocky landscape under a starry night sky. A vibrant green aurora borealis (Northern Lights) is visible in the upper half of the frame, arching over a snow-covered mountain peak. The foreground shows a mix of dark rocks and white snow, with a small pool of water reflecting the green light. In the distance, a body of water and another snow-covered landmass are visible under the starry sky.
