

Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

The sustainability of Hostel Norður Vík

Jona, Mari, Sigrid, Sofia and Sævar

Information about the hostel

How does the Hostel work with sustainability?

Almost all of the food is locally sourced, e.g. the fish comes from her cousin's fish farm

All of the eggs for breakfast are from the chickens in their garden and all the leftovers go to the animals

They co-operate with a lot of local businesses, e.g. they recommend restaurants in the area

It's environmental policy mostly focuses on five main factors:

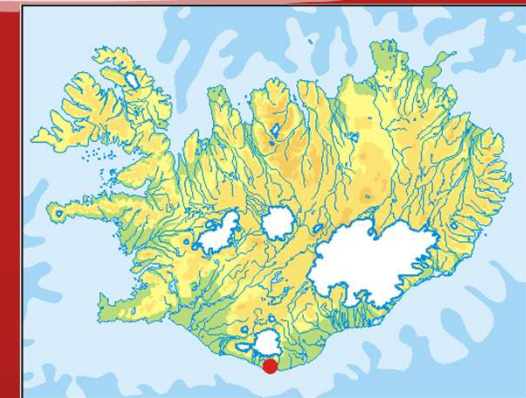

1. Recycling
2. Cleaning
3. Energy saving
4. Using local and "home made" products
5. Conservation of the landscape and wildlife

The Hostel is in the northern part of Vík

It used to be a farm

It is family owned and made to feel like home
