Global goal 8

Promote inclusive and sustainable economic growth, employment and decent work for all. Sustained and inclusive economic growth can drive progress, create decent jobs for all and improve living standards

COVID-19 has disrupted billions of lives and endangered the Global economy.

How to achieve global goal 8

To achieve economic growth and sustainability, we must create many job opportunities in the community while at the same time sustaining ourselves with products from local businesses. But at the same time, we must be wary of our nature, and not to destroy it.

Hotel Kría and the global goal 8

Hotel Kría is a hotel company in Vík

They do not have a policy regarding the global goals

However, they tend to recycle everything they can, and avoid single-use products

The local businesses in Vík support each other and collaborate in many ways.

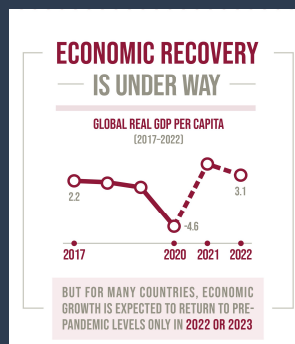

They are reliant on the weather

The architecture of the hotel is made to withstand the weather conditions in Iceland

- e.g. the building curves to the direction of the most common wind

PROMOTE SUSTAINED, INCLUSIVE AND SUSTAINABLE ECONOMIC GROWTH, FULL AND PRODUCTIVE EMPLOYMENT AND DECENT WORK FOR ALL
