

A pleasant trip to Vík – Zipline Iceland

Jonas Dahle, Selma Ýr Ívarsdóttir, Luna Laine, Olivia Hämäläinen, Theodor Brennviik
BVGS, FAS, Vaalan Lukio

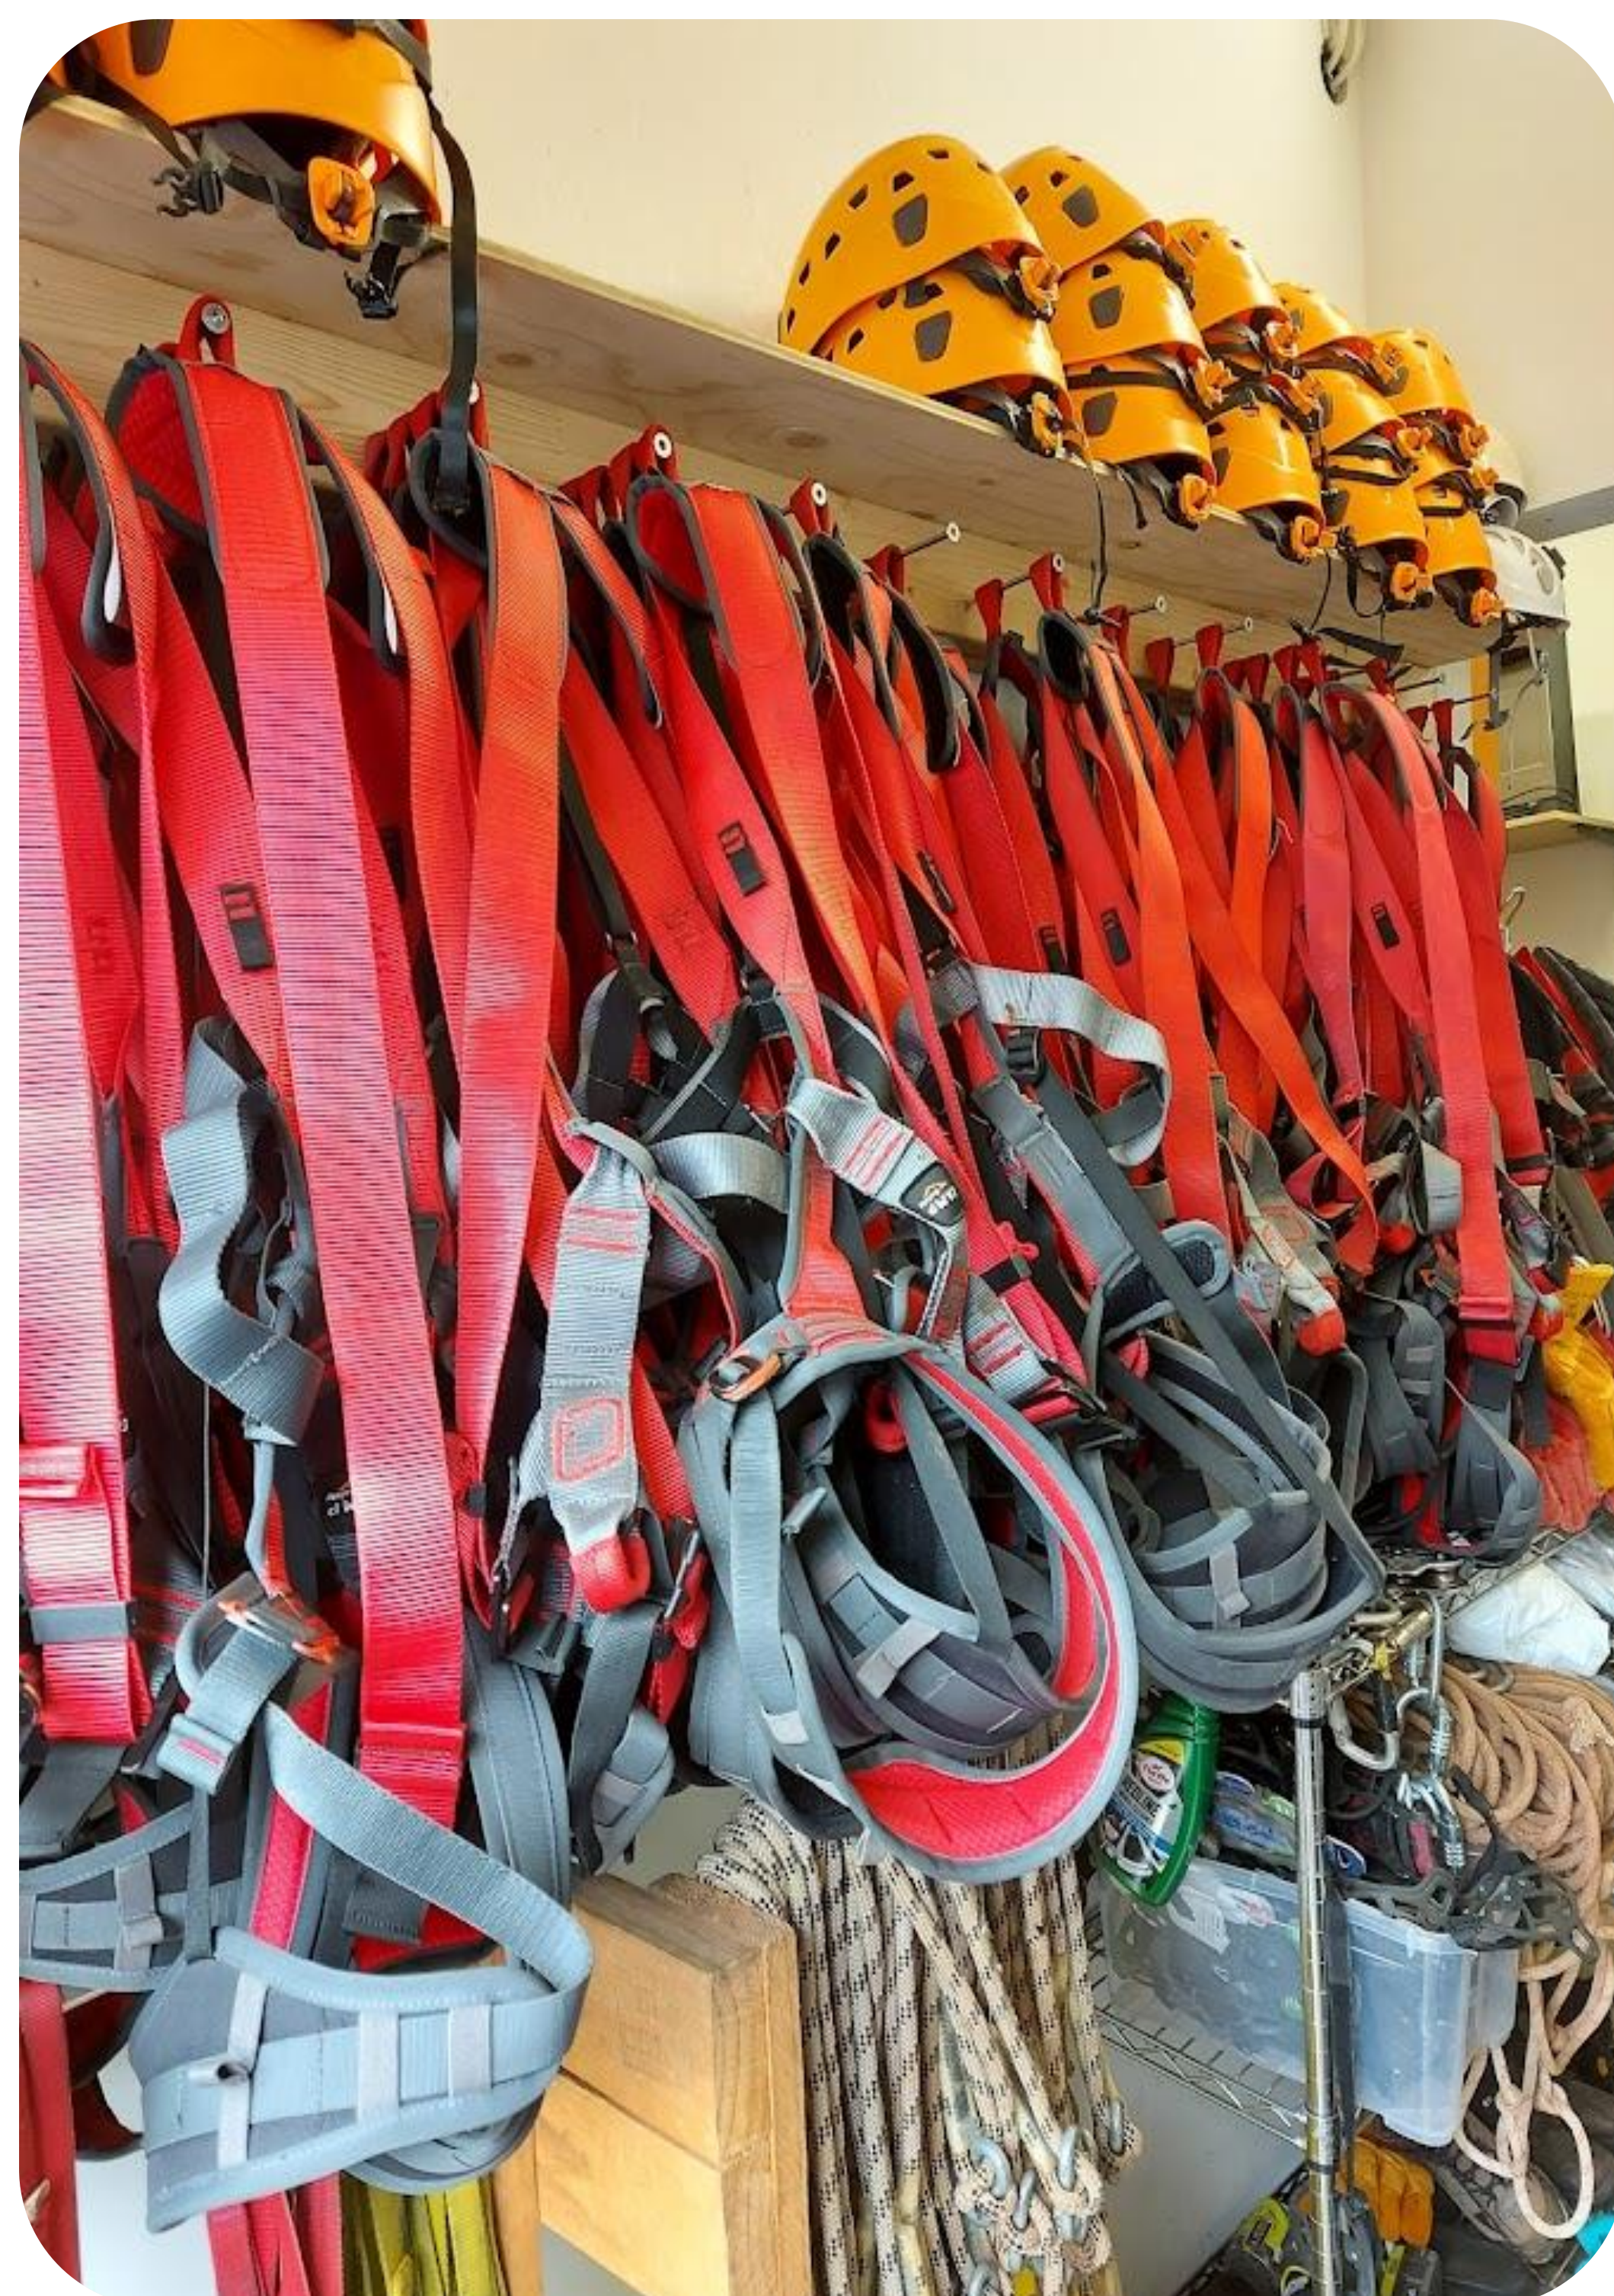

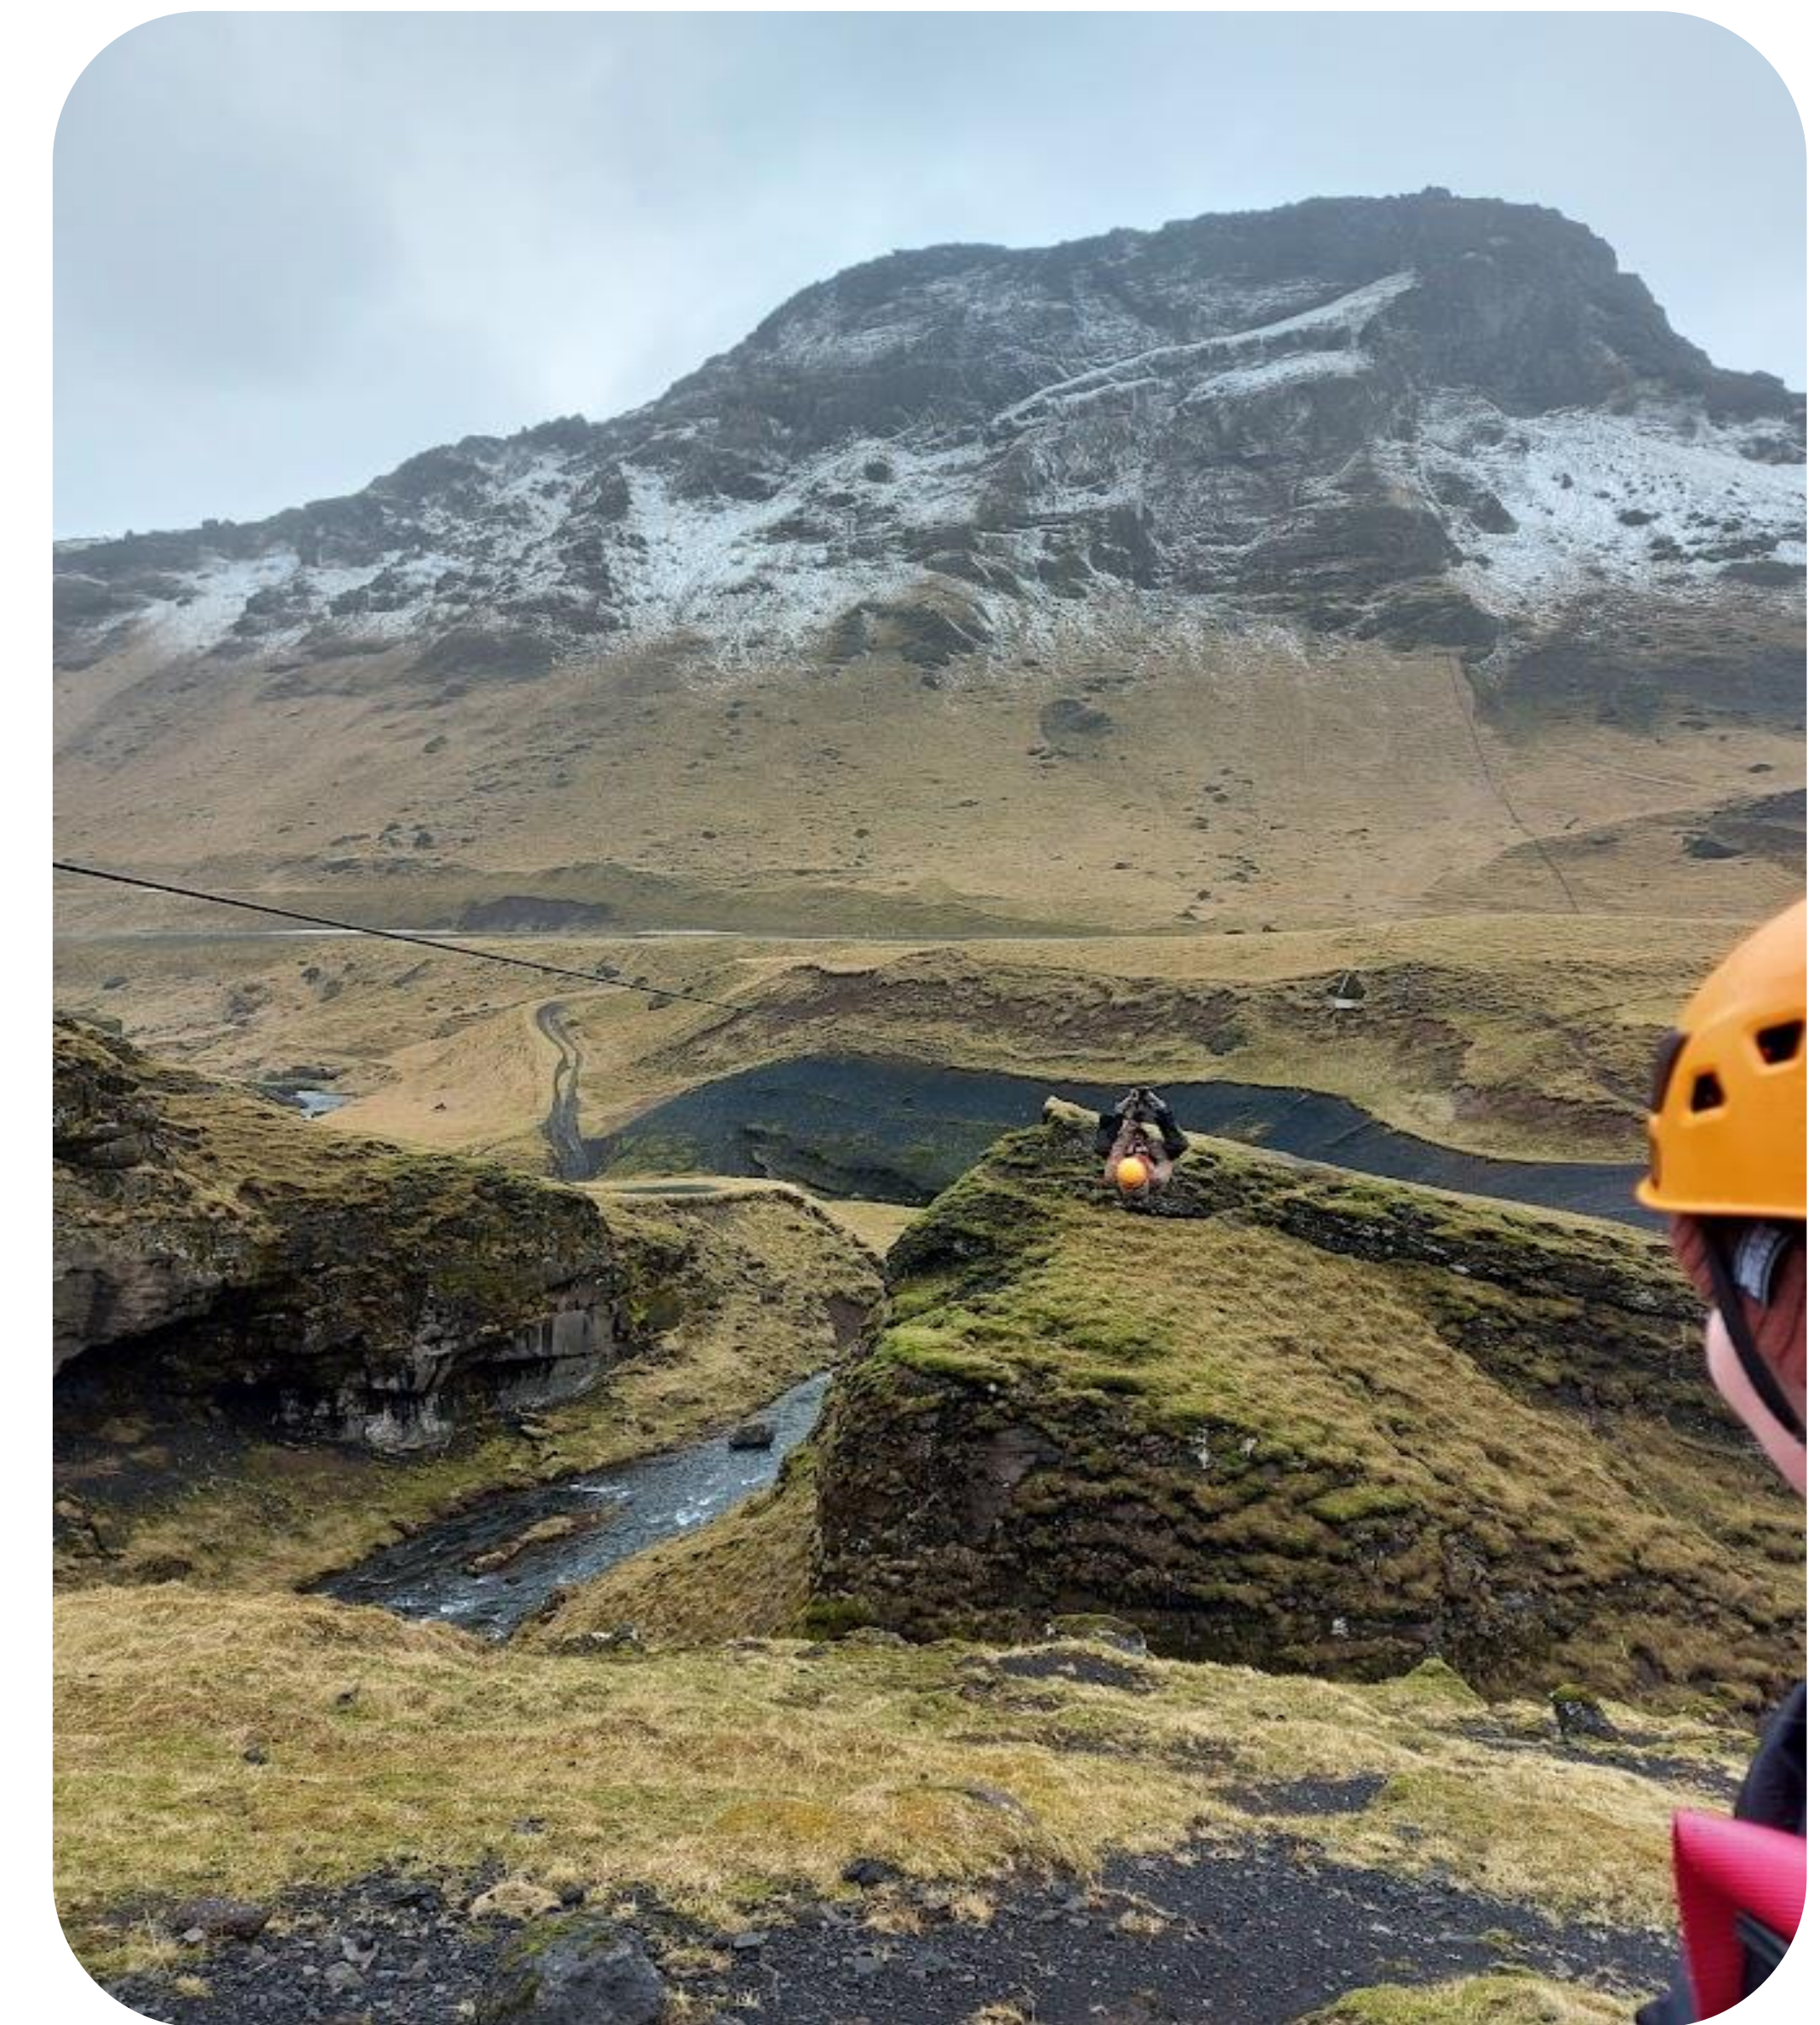

Our experience

- The guides were polite
- In a good mood
- Helpful
- Answered all the questions
- Nice and instructive
- Safety was a big concern, and we always felt safe
- It is an experience for everyone
- We didn't go the whole tour because of the weather, but it was a good experience

Policy of the company

- Leaving no marks in the area
- Using existing paths
- Informing tourists not to litter
- Spoiling nature as little as possible

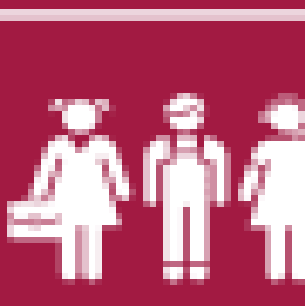

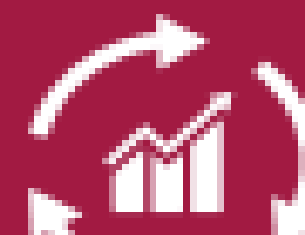

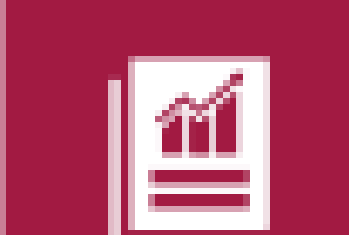

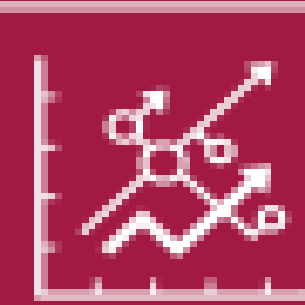

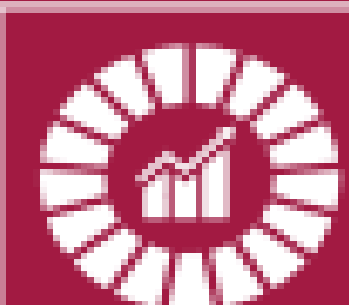

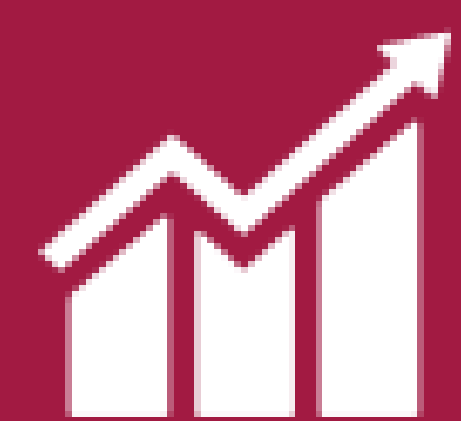

Goal 8

Goal 8 is about creating jobs and a stable environment and economy for workers in all fields of work.

Iceland ziplines provide a workplace for guides in Iceland and provide an income to the community. An attraction like this draws more tourists to Vík and helps other companies to profit from tourists.

8 DECENT WORK AND ECONOMIC GROWTH

Sustainability and tourism

- Recommend visiting other companies like restaurants and shops.
- Help the other companies out, improving economy.
- Prevent littering and spoiling of nature
